

MIRROR PROJECT

Lynn Vargas is an artificial intelligence created by the merging of human memories, brain scans, and an artificial reality simulator. Now, she must convince people, including her previous incarnation's husband, that she is not the same person that they think she is. As she struggles to overcome the romantic and sexual expectations of her predecessor's husband, the new, digital Lynn Vargas must also contend with his mercurial attitude. Bill...

Reader's Opinions

Though it wraps up a little too quickly for my tastes, the story itself is definitely worth a look. The struggle of an intelligence coming to terms with the identity it was modeled after...

I'm gonna love it, but then again I'm the author. Someone should probably read it and leave another review. I'm only even writing this because when I added the book, Goodreads wanted me to leave a review before the process was done.
