

IDEAS, CONCEPTS, DOCTRINE : BASIC THINKING IN THE UNITED STATES AIR FORCE 1907-1960

This history investigates and records the development of thought and doctrine within the United States Air Force and its predecessors. It tracks the themes and objectives of institutional thinking, describes the organizational framework, identifies individual thinkers and their ideas, examines the context of various conflicts, strategies and operations, and attempts to analyze the capabilities and limitations of air doctrine and power. In two volumes, it begins at 1903...

Reader's Opinions

This book is a long a detailed exploration of the evolution of thinking, debating, and doctrine formation for U.S. airpower up through 1964. What Futrell is doing here is quite amazing -- he is exposing the depth and breadth of thought within the military bureaucracy and showing how changes in doctrine form organically out of multifaceted...
